

Fixed Rate Home Loan

MORTGAGE LENDING

Are you ready to purchase your own home?

Fixed Rate loans can have better interest rates than non-conventional loans and serve as a great option for those with a sizeable down payment. Qualified buyers can purchase their dream home with as little as 5% down, and own a home sooner with a low down payment by taking advantage of several mortgage insurance (MI) options. Best of all, premium payments are temporary; MI can be cancelled once your home loan reaches 78% of its original value.

- ◆ Loan amount up to 95% of purchase price, with 5% down
- ◆ No private mortgage insurance (PMI) with 20% down
- ◆ No origination fee
- ◆ No pre-payment penalty
- ◆ Locally serviced
